

DWA_03.4 Knowledge Check_DWA3.1

1. Please show how you applied a Markdown File to a piece of your code.

From the previous module, when we were required to create a website that enabled the viewing of all books and authors. I used a markdown file to note all changes I had made to my code, as well link to the presentation slides that I had to use to present my code.

2. Please show how you applied JSDoc Comments to a piece of your code.

I simply created a small portion of code in order to demonstrate the JSdoc commenting

```
/**
 * a simple function to return the sum of two numbers
 * @param {number} number1
 * @param {number} number2
 * @returns {number}
 */

const addThese = (number1, number2) => {
  return 1 + 2;
}
```

3. Please show how you applied the @ts-check annotation to a piece of your code.

This piece of code is the same, except this time i have added in the @ts-check

```
//@ts-check
```

```
/**
 * a simple function to return the sum of two numbers
 * @param {number} number1
 * @param {number} number2
 * @returns {number}
 */

const addThese = (number1, number2) => {
  return 1 + 2;
}
```

4. As a BONUS, please show how you applied any other concept covered in the 'Documentation' module.
